Konica Hexar 35 mm Manual Film Cameras for sale | eBay

Hexar S-Mode (sort of, anyway..) Yep, it's true, the Hexar does not sport a shutter priority mode. Programmed aperture preference (P-Mode), Aperture priority (A-mode) and full manual (M-Mode), it's all there. But there's no way to crank the selector button all the way up to an S-Mode. What the Hexar does have though, is a user programmable

what it could do. It was introduced in 1993. "Hexar" is related to all the other "Hex" product names Konica had been using for decades.

Konica Hexar - Ken Rockwell

The Konica Hexar is a 35 mm fixed-lens, fixed focal length autofocus camera which was produced through the 1990s. It was introduced to the market in 1993. While styled like a rangefinder camera, and intended for a similar style of photography, in specification it is more like a larger "point and shoot" camera.. The Konica Hexar enjoys something of a "cult status" among film camera aficionados ...

Konica Hexar - Wikipedia

It operates in one of 3 modes;: Program, Aperture preferred, and Manual.The Konica Hexar AF Program mode is pretty much like on every other camera. Except it allows you to control its biasing

Konica Hexar (AF) review - Picking a few holes in the ...

The Konica Hexar, first released in 1993, is a fixed-lens, autofocus camera from Konica with a 35mm f2 lens, rather expensive when new. Marketed as an alternative to the Contax G, the Nikon of the time, it appealed with its superb lens and the general high quality of its construction. It also has some unique features, such as a "stealth mode" that makes it one of the quietest of 35mm cameras ...
